Certified to meet EPA standards

- Can switch between wet and dry without stopping
- Interior baffle/wall keeps the HEPA filter dry at all times
- Micro Pre-filter retains its strength when wet
- Longer lasting HEPA filter when used with Micro Pre-filter
- Larger surface area of filters provides superior air flow
- Roomy 16 gallon canister for maximum airflow
- Maintains suction after ingesting 40 lbs of dust
- Economically priced for small contractors

Dustless Technologies H.E.P.A. Wet/Dry Vac help recover asbestos, lead dust, and other airborne pollutants. H.E.P.A. vac filtration effectively removes 99.97% of all particles to 0.3 microns. Changes from wet to dry pickup without removing filters.

Includes: 2 extension wands, crevice tool, utility nozzle, 1 micro prefilter bag, 12' crushproof hose, and 15' cord.

Water Lift/Air Flow: 72"/116.59 CFM. 5 hp, 11.5-amp motor. 16 gal capacity.
